[GitHub](#) | [LinkedIn](#) | [ranaahmed.com](http://ranaahmed.com)

MERN Stack Developer with 2.5+ years of experience building and shipping real-world SaaS and internal tools using Next.js, React, Express, and MongoDB in cross-functional teams.

### **EXPERIENCE - MERN Stack Developer | DeveloperLook | Sept 2023 - March 2026**

---

- Delivered full-stack web apps using React/Next.js for modern frontends and Node.js/Express for scalable backend services, ensuring responsive UIs, efficient APIs, and smooth user experiences.
- Built responsive, animated, high-performance UIs using Tailwind, GSAP, and advanced form handling. Used Recharts to build interactive graphs for admin dashboards.
- Developed secure REST APIs with MongoDB/Mongoose, JWT, bcrypt, and OAuth integrations.
- Integrated Stripe payments, transactional emails, file/media pipelines, and AI-assisted features with OpenAI/Anthropic.

### **MY SKILLS**

---

**Frontend:** React, Next.js, React Router, Tailwind CSS, Framer Motion, GSAP, React Query, Zustand, React Hook Form, Recharts.

**Backend:** Node.js, Express, REST APIs, MongoDB/Mongoose, PostgreSQL, JWT, bcrypt, OAuth, Socket.IO, Stripe, AI Agent.

**Tools:** Git, Cursor IDE, Browser Dev Tool, Figma, Docker, Supabase, Firebase.

### **PROJECTS**

---

[Staffic.io](#) | [Staffic.io \(Demo dashboard\)](#) - Built a time-tracking platform to manage employees with real-time dashboards, task & project management, invoicing, live feed, team management, attendance, etc.

[DeveloperLook](#) - Designed and developed a modern agency website using **Next.js** and **Strapi** CMS, implementing advanced **GSAP animations** and responsive UI. Built and maintained most of the frontend architecture.

### **EDUCATION**

---

Bachelor of Arts (BA Honors) — Sirajganj, Government College

**Department:** Economics

**Duration:** June 1, 2023 - Present
